

Attention Granite Disposal Customers

- Beginning **January 1, 2024**, if you choose, as Granite Disposal's customer to be part of Granite Disposal's co-operative program, then your solid waste/garbage units (2,000 pounds per year) attached to your property will all be used by being a member of the co-operative.
- If you decide to utilize Granite County's solid waste dump sites by bringing any of your garbage directly there (while part of the co-operative), then you will have to use the **pay-as-you go program**.
- If you have any questions as a Granite Disposal customer, **please contact Granite Disposal at 406-288-3348**.

Thank you,

Granite County
